ANDERSONVILLE POST OFFICE.

The following lines, descriptive of an incident in the "pen" of Union prisoners at Andersonville, Ga., are attributed to G. H. Hollister, Esq. of Litchfield, Connecticut.

No blanket round his wasted limbs,
Under the rainy sky he slept;
While pointing his envenomed shafts,
Around him Death, the archer, crept;
He dreamed of hunger and held out
His hand to clutch a little bread,
That a white angel with a torch,
Among the living and the dead,
Seemed bearing, smiling as he went;
The vision waked him, as he spied
The post boy followed by a crowd
Of famished prisoners, who cried
For letters—letters from their friends,
Crawling upon their hands and knees.
He hears his own name called, and lo!
A letter from his wife he sees!
Gasping for breath, he shrieked aloud,
And, lost in nature's blind eclipse,
Faltering amid the suppliant crowd,
Caught it and pressed it to his lips,
A guard who followed, red and wroth,
And flourishing a rusty brand,
Reviled him with a taunting oath,
And snatched the letter from his hand.
"First pay the postage, whining wretch!"
Despair had made the prisoner brave,
"Then give me back my money, sir!
I am a captive, not a slave!
You took my money and my clothes,
Take even my life—but let me know
How Mary and the children are,
And I will bless you ere I go."
The very moonlight through his hands,
As he stood supplicating, shone;
And his sharp features shaped themselves
Into a prayer; and such a tone
Of anguish there was in his cry
For wife and children, that the guard,
Thinking of his own—passed by,
And left him swooning on the sward.
Beyond the "dead line" fell his head—
The eager sentry knew his mark—
And with a crash the bullet sped
Into his brain, and all was dark;
But when they turned his livid cheek
Up toward the light the pale lips smiled
Kissing a picture fair and meek,
That held in either hand a child.

NEWPORT DAILY NEWS,

THURSDAY, July 25, 1867.

SCHOOL VACATIONS.

These seasons of recreation are now occurring throughout the country. That they are needed by both teachers and scholars is generally conceded, and by common consent, a protracted season of rest is accorded them in the warm months. No other occupation is so wearisome as that of continued mental application, unrelieved as it is, by those changes and alternations of labor and rest which are incident to most kinds of employment; and few persons are so jaded at the end of the year as teachers and students. The vacations should be such in reality, affording entire cessation from intellectual labor and freedom for change of scene and for healthful recreation, where it can best be found.

If a resort to the country can be had and it is possible to mingle in the scenes of rural life, no better diversion is practicable, and after it all parties return to the work of the succeeding months with renewed vigor and elasticity both of mind and body. To those who are denied this privilege, which is less a privilege to those who reside in our own seaside home than to the dwellers in inland cities, there is ample opportunity for enjoyment in the resorts and occupations which prove so strong an attraction drawing people from abroad to inhale the salubrious air of Newport.

It is possible to make the vacation extend over too many weeks for the benefit or comfort either of parents or children. We do not think this defect exists in the management of the public schools of this city. Five weeks are none too many for the end in view. Yet, we have heard repeated complaints from our foreign fellow-citizens, that their children are out of school so long and they have the trouble of caring for them so many weeks. Many parents who are compelled to go out to labor are perplexed what to do with the children in their absence, and to such the school is a place where they feel assured of their safety. We repeat that this complaint does not apply to the public schools; and we wish our young friends the full enjoyment of every day of their approaching vacation.

Rev. Mr. Merrill.

This gentleman, whose name has been mixed up with a great deal of scandal, has written a letter explanatory of his position and acts. It is now conceded that the story of his elopement was without more than the shadow of a foundation. He acknowledges that he was a frequent visitor at the young lady's home, but went there for the society of the family in order to get relief from a burden of sadness which was weighing heavily on his mind. The cause of this was a debt which was contracted before entering the ministry, which he did at the early age of eighteen. His debt, which he could not discharge on account of his small salary, increased as his family multiplied, until it amounted to some three thousand dollars. [illegible] means to meet them, he was driven almost to suicide, and this was the occasion of his disappearance. He now humbly acknowledges his wrong act and imploringly asks forgiveness of the church, his parish and the public.

We have no words of apology for offending clergymen or other criminals, but we have a word of protest against the apparent malignity and exultation with which a portion of the press heralds forth and reiterates every shade of scandal that can be brought against men of the clerical profession. Some of our exchanges have, day after day, paraded the name of Mr. Merrill before their readers always in a most derisive tone and often with a slur upon the profession as such.

We need not remind our readers of the cause the community has to hold the clerical profession in high esteem, or of the useful service the ministers of the gospel have, from the beginning, performed for the country and the world. There are, to speak within bounds, in this country thirty thousand Protestant clergymen. Their total income does not approach that of the lawyers; they cost the country not nearly so much as the dogs in the streets; and their average pay is not equal to that of clerks and bookkeepers. Of the whole number, say ten, in the course of each year, are found guilty of some dereliction or crime. That is, one in three thousand; and for the crimes of these, the enemies of religion take every opportunity to brand the class as unworthy of public confidence, while the observation of every reader of the calumny proves the alleged dereliction to be but the rarest exception. If the clerical order is useless or injurious to society, let it be abolished. Let the churches be closed or demolished, and all the work done by the clergy be left undone. It is not difficult to imagine the results. If the case be otherwise, let the criminal bear his own crime. Treat him and speak of him as other criminals are treated and spoken of; but do not bring into contempt an ordinance which God has established and which is so much needed.

A FRONTIER TOWN.—The new town of Julesburg, on the Union Pacific railway, is growing rapidly in some things. The Omaha *Herald* says it has one hundred and twenty whiskey shops for a population of about three thousand. At a recent meeting of the citizens it was voted to form a civic government and to adopt the charter, laws and ordinances of Omaha. They have elected a Mayor and City Council. The mayor was only a five day resident of the place, and none of the council had been there over ten days. Rents are enormously high. One man pays $100 a day for a tent for a gambling and billiard hall with one table. Another rents a building, part shop, part canvas, for $1,000 a week.

Dr. E. H. Sisson of New Bedford, lost a valuable horse by sickness, the other day. The *Standard* says quite a number of horses have died in that city recently, and many are sick at present. Live stock insurance would be a relief to the owner.

Another Cruel Hoax Exploded.

The story was published a few days since of the capture by the Indians of a train near Fort Larned. The Indians were said to have killed all the males, including Bishop Lamey and seven priests, and to have carried off the females. General Sherman contradicts the whole story in a letter to the St. Louis *Republican*. He says:

"Fort Larned is about fifty-five miles south-west of Fort Harker, and has a garrison, besides posts at Zara and Plum Creek between. The tri-weekly stage to and from New Mexico passed regularly during my stay of ten days at Fort Harker prior to the date when this capture is reported to have occurred, and many trains loaded with private and government freight have passed out during the same time, and all trains were inspected by an officer, to see if they were properly equipped and guarded. I lived with the commanding officer, Colonel Hart and did not hear him refer to any train going out with priests and nuns. Nor is Lowry the name of the Bishop of Santa Fe. Besides, this telegram comes from New York, and is quoted from a Leavenworth paper, and I have letters and telegrams from Leavenworth up to-day, without mention of any such occurrence.

"The country has been shocked by so many terrible accounts, fabricated for a purpose—such as the Fort Buford affair, the steamer Miner, and the killing of Gen. Custer; all of which you now know to have been pure inventions, that, I think, journalists should endeavor to ascertain the truth before shocking the public with such terrible announcements.

"Of course, I cannot absolutely deny this report; but it has no semblance of truth when tested by the facts I have stated."

Trial of John H. Surratt.

The Criminal Court continued in session to an unusually late hour Tuesday, as every body is anxious to get through with Surratt's case.

Several witnesses swore to the general good character and reputation of Tibbetts, who testified to hearing Mrs. Surratt say in presence of the prisoner, that she would give $1000 to have Lincoln killed; three or four testified favorably to the character for truth and veracity of Surgeon McMillan, to whom Surratt made important confession on shipboard, and a dozen swore that Cameron, the pardoned rebel guerilla, whom the defence called to break down McMillan's testimony is not in good standing at his former home in Maryland, and is not worthy of belief even when on oath. The doctor himself was put on the stand again and flatly contradicted the evidence of Father Boucher, given Monday, relative to having ever talked with him about procuring an abortion. The evidence shows that there is a pretty bitter quarrel between these two persons. McMillan's former partner, Dr. Erskine, was also called, and he too contradicted some material statements in the priest's evidence. Blinn, the man who found the Surratt handkerchief at Burlington, was again called, and he then [illegible] for the defence, is not the man who lay down in the railway station where it was found. Hobart, the railroad conductor, also declared on oath that Holl[illegible]an is not the man whom he identified as Surratt, and who went over his road. These occurrences are fixed by the prosecution on the morning of Tuesday, and that Holloban the detective was the party interested. Both these persons declare he does not look at all like the man they saw.

Witnesses were called to break the force of the testimony of Dr. Bissell, who testified that he saw Surratt in the Brainard House in Elmira on the day of the assassination, by showing that the interior arrangement of that hotel is not at all as described by Bissell, and he could not possibly have been there as he says, as there are no trains at times he named. Another witness was produced to show that Surratt could easily have reached here on the morning of the day of the murder, if he had left Elmira at 10 or 11 o'clock the preceding day. He also testified that a man came down in the train that did leave at that time, and that he was very anxious to be ferried across the river at Williamsport, and that he thought Surratt was the man, but could not positively identify him as the ferryman did yesterday. The prosecution hope to finish their rebutting testimony on Thursday.

Impeachment Investigation.

The four members of the judiciary committee who favor impeachment will probably present three reports next winter. Governor Boutwell will probably content himself with presenting his views of the law bearing upon the matter, which he will do with considerable fulness. His report is not yet done. Judge Williams first presents the law and then sums up the evidence in support of impeachment. His report is about ready. Judge Lawrence arranges the evidence against the President in extracts under separate heads, and also argues the law. Governor Thomas has not yet drawn up any report, and may join with one of his colleagues. The three anti-impeachment republicans take ground that it is not proper to draw up a report till the testimony is all in, and their report has progressed no further than Judge Wilson's careful and elaborate statement of the law, which, in their opinion, must govern the case. It is not known what progress the democratic members have made with their report. Another fact connected with Gen. Grant's evidence has leaked out. He says in reference to the Presidential tour last summer, that he was first invited to go by the State Department, and declined, and that he did not waive his objections and consent till he had been personally urged by the President to accompany the party. The members of the committee who remain at Washington have examined Cameron the Surratt witness, in accordance with the understanding reached previously, in reference to his recent pardon by the President. No more meetings will be held till the 13th of next November.

New Publications.

The Galaxy for August, besides containing additional installments of "Waiting for the Verdict," and "Steven Lawrence, Yeoman," has an interesting paper upon "London Amusements," by W. Winwood Reade; an article upon the "Pacific Railroad," by William C. Church; an anonymous discussion of the question "Who invented sewing machines?" "Croquet," by L. C. Davis; "Burglars," by Clifford Thompson; and several other articles in prose and verse.

Our Young Folks for August, opens with a full page illustration entitled [illegible] Catchers," and abounds in stories by Dr. Hayes, R. H. Stoddard, Mrs. Edward A. Walker, Anna M. Wells, Harriet Beecher Stowe, Margaret T. Canby and many others. It is a bright, rich number for its class of readers.

Every Saturday for the 27th, has an article on Culture by Matthew Arnold, another by the poet Swinburne, and the usual supply of entertaining matter.

Littell's Living Age for July 27th, has an article on Herbert and Keble, which will attract the attention of a large class of readers; also one on the pageantry at Rome; and Old Sir Douglas and others well worth reading.

Oliver Optic's Magazine for Aug. 3, continues the two stories, Breaking Away and The Mysterious House, and has several other articles entertaining to the boys and girls. Lee and Shepard, Boston.

WEST INDIAN EMANCIPATION.—As in former years, the colored population of New Bedford and vicinity are making suitable arrangements for a grand celebration of the thirty-seventh anniversary of the British West Indian Emancipation. The ceremonies thus far include a procession of colored societies and citizens, escorted by the Second Battalion of Infantry, M. V. M., the Burnside Guard, Capt. Beckham, of Newport R. I., and a recently formed military company of Providence, the whole under the command of Major Lewis Gard of the Second Battalion. There will be a picnic in the afternoon, at which addresses may be expected from distinguished gentlemen connected with the anti-slavery cause. The day's celebration will close with a grand ball in the evening.

Mrs. Dr. Walker's Bloomer dress excites the attention of Paris, where the lady is at present; but another female who carries "Bloomerism" to even a greater extent than "Doctor" Walker has attracted no little attention at the Grand Hotel. She is very pretty, and dresses in the height of the fashion—but it is "man" fashion—with the jauntiest little hat and the neatest fitting coat, with a rose always in one of its button-holes, tight vest, showing a fair development of chest and light pantaloons, with patent leather boots. This young female, whose dress and presence have horrified some of the more staid of her sex at the hotel, is an English girl.

Love of smoking caused the death of W. C. McDowell, a Leavenworth lawyer, at St. Louis, last Tuesday. He was riding outside on the Southern Hotel coach to enjoy his cigar, on his way to the depot, when, at the corner of Fifth and Poplar streets, the coach struck a rough place in the street, and Mr. McDowell was thrown from his seat, falling upon the ground, the wheels passed over him and injured him so severely that he died in a short time.

The Pittsburgh Dispatch says that in town at one of the fashionable churches strangers are seated according to dress. If elegantly dressed, they are shown up the broad aisle near the pulpit; if well dressed they will secure a sitting about half way up the broad aisle; if ordinarily dressed they are disposed of in some one of the side pews under the gallery, and as near the door as possible.

News Miscellany.

John Minor Botts, in a recent letter, says that "there is a purpose now half dormant, in the event of the restoration of the Democratic party to power in the State and Federal Governments, not only to test the constitutionality of the acts of Congress conferring suffrage upon you, but also to reduce the former slave to bondage again, upon the ground that it was improperly and unconstitutionally forced upon the Southern States."

It is related that as Jeff. Davis was just about to enter his carriage on leaving the theatre at Montreal last Friday night an unknown person, observed only by a few, stepped up and handed Mr. Davis a note, which he carried to his house. Coming to the light it was opened and found to contain the single word, written in a bold hand, "Andersonville." This, it is said, went like a dagger to his heart, and he nearly fainted. This is probably "slightly sensational."

During a recent discussion of the Mexican question in the Corps Legislatif of France, M. The French troops ought to have brought back Maximilian and thus have saved France from the stain of blood which will rest upon her.

The National bank at Weedsport, N. Y., has failed in consequence of dabbling in stocks by a prominent officer of the bank, who finding himself in a close corner, pledged everything available in order to carry the speculations along while waiting a rise in the stocks, and effected insurance to the amount of $30,000 on his life to be used as "collateral." The failure sweeps the entire capital of the bank—$100,000.

THE NEWPORT WEEKLY JOURNAL

WILL BE PUBLISHED ON

SATURDAY, Aug. 3, 1867,

And thenceforth every Saturday at

No. 13 Church Street, Newport, R. I.

—o—

In making this announcement the publishers desire to say that they purpose to issue what shall be in all respects

A First Class Family Newspaper,

Worthy of a place in every intelligent household. By process of thorough classification and condensation it will present the gist of all the news of the day, and will be so far complete in itself that the person reading it, though having no other, will not be ignorant of important current events in any department. To this end it will contain, in addition to what may be obtained from Exchanges,

Foreign and Domestic Correspondence,

Written expressly for its columns, including letters from the principal places of interest both at home and abroad. Each number will also have, in brief, an

Agricultural Department,

Which the Editor will endeavor to make of the highest value to Farmers, Florists, and Gardeners. As this will be prepared with much care, it is hoped to make it an invaluable organ to such as are interested in the cultivation of the soil. In the discussion of

National Affairs,

The JOURNAL will not be under the control of any party or clique, but will advocate those broad principles of equal rights and impartial justice upon which our national superstructure was originally established. It will not affect to be neutral in anything but endeavor in all, and will earnestly seek to promote the unity and prosperity of our common country. It is proposed, in short, to make it a complete

Weekly Compendium,

And to accomplish this, no pains or labor will be spared. The services of some of our best writers, not unknown to fame, have been already secured, and others will be employed from time to time.

THE WEEKLY JOURNAL will be published at the exceedingly low price of $1,50 a year, if paid in advance, and will be the cheapest newspaper in Rhode Island, if not in New England. A sufficient number of subscribers has already been obtained to assure its success, and efforts will be made to greatly increase its circulation, both in the city and surrounding towns.

Advertisers

Will find the JOURNAL a favorable medium of communication with the public and their favors are solicited. Special arrangements will be made with those who occupy space in the *Daily News*. For further information as to terms, &c., apply at the office of publication.

Mr. Editor Daily News:

Dear Sir: Please insert for the benefit of our citizens the manner in which our City Fathers have treated a petitioner for a release for being bit by a *known* bad dog belonging to one of the officials of the city. The man went to him and wished the dog killed, feeling it would be safer to have it out of the way, but received nothing but *curses*; he then went to Mr. Sheffield and paid him for a simple *petition* to the Board of Aldermen two dollars. It went before them and after their meeting was told it must come before the whole Board, and now is told that the dog is sent to Fall River. Is there no redress? KELLEY.

TELEGRAMS.

FROM WASHINGTON.

WASHINGTON, July 24, 1867.

Gen. Rousseau has at last been officially assigned to the command of Alaska.

The British Minister has accompanied Secretary Seward to his home in Auburn, New York.

At a Democratic meeting in Baltimore last night one of the members of the Maryland Constitutional Convention appealed to them to come forward and assert the doctrine of State rights, and carry back the Government to its real intent as understood by the framers of the Constitution. The Sovereignty of Maryland, he said, must not go under, unless it be at the point of the bayonet.

The ex-rebel Commissioner for the exchange of prisoners publishes a letter in the National Intelligencer to-day, in which he says that in August, 1864, the rebel authorities voluntarily proposed to deliver 15,000 sick and wounded Union soldiers, without requiring any equivalent. He offers to prove this by Union officers.

COUNTERFEITERS ARRESTED.

CINCINNATI, July 24.—Two Italian counterfeiters were arrested in a room on 3d street to-day while in the very act of molding counterfeit five cent nickels. They had superb dies and machinery and had several bushels of specimen coins ready to be shaved.

GENERAL GRANT NOMINATED FOR THE PRESIDENCY.

NEW YORK, July 24.—At a meeting of the Union Republican General Committee at their rooms in this city last evening, Gen. Grant was nominated as the choice of their party for the next Presidency, subject to the decision of the Republican National Convention.

$50 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,

Their effects and consequences;

SPECIAL AILMENTS AND SITUATIONS

Incident to Married and Single Ladies;

SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S

PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass.,

Is so arranged that patients never see or hear each other. Recollect, the only entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by quacks, who will say or do anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than is cured," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will even perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

All letters requiring advice must contain one dollar to insure an answer.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove, the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air chamber, which heats the air as it passes through the fire pot and into the oven, causing the meats to bake or roast perfectly and evenly, a great desideratum with a careful house-wife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport,

MISCELLANEOUS.

THE UNION PACIFIC RAIL ROAD CO.

Are now constructing a Railroad from

OMAHA, NEBRASKA,

westward toward the Pacific Ocean, making with its connections an unbroken line

Across the Continent.

The Company now offer a limited amount of their

First Mortgage Bonds

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT IN GOLD.

Ninety Cents on the Dollar.

This road is already completed to Julesburgh, 376 miles west of Omaha, and is fully equipped, and trains are regularly run over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done in September of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. thirty-year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital of the Company is one hundred million dollars, of which five million have already been paid in, and of which it is not supposed that more than twenty-five million at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended; on 336 miles of this road the cars are now running, and the remaining 181 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

Nine Per Cent.,

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

FIRST MORTGAGE BONDS

OF THE

CENTRAL

Pacific R. R. Company.

This Company is constructing, under the patronage of the

U. S. Government,

the Western end of the

Great National Railway across the Continent.

The line will extend from Sacramento, California, [illegible] to the California State line [illegible] the great mining [illegible] Territories, to the vicinity of Salt Lake City.

[illegible] Western [illegible] of the only route [illegible] adopted by Congress and [illegible] United States Bonds.

The line is already completed, equipped and running [illegible] miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunneling, &c., beyond that point has been accomplished.

The FIRST MORTGAGE BONDS of this Company [illegible] elements of Safety and Profit to Investors, for the following among other reasons:

FIRST. The rate of interest is SIX PER CENT. IN GOLD, payable semi-annually in the City of New York.

SECOND. The Principal is payable in GOLD at maturity.

THIRD. The cost of the Bonds, Ninety-Five Per Cent. and accrued interest, is Ten Per Cent. less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

FOURTH. The United States Government provides nearly half the amount necessary to build the entire road and looks mainly to a small percentage of the future traffic for repayment.

FIFTH. Owing to this liberal provision, accompanied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise, its success is rendered certain, and its financial stability is altogether independent of the [illegible] which attend ordinary Railroad enterprises.

SIXTH. The Security of the FIRST MORTGAGE BONDS is therefore ample, and their character [illegible] is equalled only by that of the Securities of the Government itself.

SEVENTH. The net earnings of the completed portion are already largely in excess of the interest [illegible] which the Company will incur on [illegible] and are steadily increasing, [illegible] payment of the Interest [illegible].

EIGHTH. At the present rate of Gold they pay nearly 8 1-2 Per Cent. per annum on the amount invested.

The Bonds are [illegible] denominations of **$1,000** with semi-annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest [illegible] from January [illegible].

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive prompt attention.
